EXPERIENCE THE ULTIMATE

# HIGHER STANDARDS. BETTER VALUE.

Island Spas by Artesian are chosen and purchased by some of the most discriminating consumers because of the very evident aesthetic appeal and attractive features of the spas in this line. But this competitively priced spa line does not compromise functionality for beauty. Built to the same world-class standards of quality – by the same gifted hands – that bring the Artesian Platinum Elite spas to market, the Island is as unflinching in quality as it is in aesthetic appeal. However, the expert craftsmanship and stunning design are not the only compelling aspects of the Island Spa. This spa line is built to deliver robust and meaningful therapy, performing consistently at the top of its class. What's more, with the Island line, each spa is uniquely crafted to meet your specific needs and cater to your demanding tastes, while always finding a way to accommodate your budget. We are committed to building the highest-performing, best-looking, supreme value spas available in the market. Ranging from 18 jets to 75 and everywhere in-between, with outstanding and attractive options such as the Cascade water feature or the dynamic **DynaBrite™** LED light system, each Island can be a one of a kind, personalized retreat.

You get to pick the Island spa that perfectly fits your needs. So, you can relax in an Island of your own.

## Why an Artesian Island Spa?

Quality, Power, Design, Reliability, Attention to detail, Service. Sit back and relax, we've got it covered!

Artesian Spas offer a different approach to the spa market.

Our dedicated dealer network are passionate about providing professional support on all spa related issues, helping you to make informed decisions during and after the purchase of your spa. We will provide help at the initial enquiry, assistance on making the correct spa choice, advice on chemicals and installation, then the quality care and after sales service that every customer deserves. Artesian Dealers are there to make the whole process simple, friendly and professional.

**In an age where most companies cater for the masses we will treat you as an individual!**

# HELIX:

## A NEW SPIN ON SPA JETS

The Island Spa line features a revolutionary breakthrough in hydrotherapy jetting with the patented Helix design; a three-dimensional, double-spiral form. This new jet, aptly named the Helix, has been designed to provide a truly remarkable hydro-massage exclusive to Artesian Spas. Engineered from the concept of the double helix, the jets use a right-directional spiral on the inside of the cylinder. This causes water to spiral out in a twisting manner, providing jet pulsation and massaging pressure. The two largest Helix jets, named **ProHelix**, provide

a high volume of water to massage large muscles in the body. The midsize Helix, called **TheraHelix**, is strategically placed in small groups in the spa to massage muscles such as calf, hamstring, deltoids, biceps, and triceps. The smallest Helix jet, the **AccuHelix**, is placed in large groupings to massage larger regions of the body, such as the entire back. As a complete system, four to five different sizes of Helix jets are featured in every Island Spa model.

## BIMINI EXERCISE

### specifications

heater	2.5 kw
full foam	yes
light	LED Multicolour
filter type	(1) 50 sq ft pleated (1) disposable Micron
<b>jets</b>	<b>75 / 55</b>

**\*Bimini Range (75 and 55) jet versions include rowing seat and exercise equipment.**

You will find that fun family time and entertainment are easy to come by when you are enjoying the Bimini. Designed for families and entertaining guests, you will have no trouble getting everyone together to enjoy this massive spa. Equipped with six massage seats, two personal loungers, and a cool down seat, the Bimini provides multiple choices for hydrotherapy.

#### Bimini Rowing Seat

Smooth, low-impact and non-load bearing, the exercise of rowing spreads the intensity of exercise evenly over the body's three major muscle groups: the torso, legs and arms. This even distribution of exercise provides for a toning effect for all of the muscles, as opposed to working for only an isolated group.

<b>jets</b>	<b>72 / 52</b>

The 11-foot-long Bimini is essentially two spas in one. Combining the most popular seating features from the Grand Bahama and the Grand Cayman, this spa boasts two luxurious loungers located at the filter end of the spa, each with unique massage configurations. The other end of the spa shares three full therapy seats, arranged in a similar manner to the Grand Cayman. Aside from the incredible 72 jets and five full therapy seats, the Bimini has plenty of room for a large group to enjoy. It has eight total seating positions as well as the popular cool-down seat. This spa is built for those who truly want to have it all.

This spa is designed to easily accommodate six people, yet it has incorporated a lounge in the seating that provides the ultimate in comfort. The 62 and 44 jet versions both feature a unique neck collar massage system in one of the corner seats. The Grand Bahama 62 also features 3 powerful therapy pumps to offer the deep tissue massage associated with the Island Range.

This spa is “grand” in every way, but especially in eye appeal and performance. The Grand Cayman sports attractive lines that are very inviting to the spa user who is looking for the comfort and relaxation of hydrotherapy. This spa is designed to easily accommodate six people, but its open seating plan has proven to be both versatile and expandable.

The Antigua spa in the Island Spa line is a smaller version of the Island Grand Bahama at 2.14m by 2.14m in size, like the Grand Bahama, the Antigua features lounge seating that provides the ultimate in comfort and hydrotherapy. It is available in 52 and 32 jet versions.

This seven foot spa is a smaller version of the eight foot Grand Cayman. The Captiva is tailor made for the spa buyer who wants an open seated spa but has space restrictions, available in 52 or 32 jetted versions both with 2 therapy pumps and the unique neck collar massage.

A smaller version of the Antigua, the Nevis has been designed as a space saving spa that will fit through most exterior doors whilst still giving you all the luxury and comfort that are characteristic of the Island Range. With the option of 44 or 32 powerful massaging jets, this spa is an Island jewel.

End every workday with style and hydrotherapy. Send your muscle aches and pains packing as you enjoy the open seating with friends or family, in the adaptable Dominica. This spa has big features but will fit indoors or out, in small spaces, or larger areas.

This three seat treasure offers all of the comforts of the larger Island Spas in a small, space accommodating package. With 2 hydrotherapy seats as well as a relaxing lounger, this spa is the obvious choice for those that do not have much space but do not want to sacrifice comfort. The Santa Cruz comes in a 30 jet version.

# SANTA CRUZ

# MADE TO THE HIGHEST STANDARDS

Looking for a spa can be a daunting experience.  
You want to know you are getting value for your money.

## STANDARD FEATURES

### WhisperPure™ circulation system

The amazing 30 gal at .4 amp super high-efficiency pump circulates all the water in the spa through our special Micron filter and through the high-yield ozonator and heater, up to 100 times per day. Our WhisperPure™ circulation system with Silent pump technology is so quiet you won't believe it's working as hard as it does.

### Full Foam Insulation

The space between the maintenance-free cabinet and the structure is filled with high-insulation foam. Full-foam insulation combined with our heavy-duty spa cover works to ensure the best rate of heat retention available in any spa. But that's not all! Full-foam insulation offers a host of other benefits, such as a stronger spa structure and less wear on plumbing welds by holding all jets and hoses securely in place. This dramatically increases the lifespan of the plumbing by virtually eliminating movement and vibration.

### Island Spa micron filter

The Island spa disposable micron filter creates a unique filtration method for spas with circulation systems. Lower density fibres are used on the surface of the filter, with higher density fibers nearer the center. This increases the dirt-holding capacity of the filter cartridge, as well as greatly increasing the efficiency of the filter and the clarity of the water. This disposable filter design improves water circulation while reducing the use of chemicals in your spa, and it has proven to be much more efficient and effective than the standard pleated cartridge filter.

### Durable Acrylic Shell

Every Artesian spa has a durable shell constructed of beautiful acrylic with our lifetime Diamondbond backing. Our jets rotate on bearings rather than plastic for ease of adjustment, and our pillows are a dyed-through, closed-cell foam to prevent cracking, discoloration, and water absorption.

**Country Taupe**

**Java**

### Long-lasting PermaWood™ Cabinet

At Artesian, we ensure that you get the best possible value by producing the highest quality spas available today. Every Island Spa comes standard with a long-lasting PermaWood cabinet and a full ABS bottom, as well as a bottom drain for easy water changing.

**Grey PermaWood**

**Red PermaWood**

### Patented High Flow “Helix” Jets with Stainless Steel Escutcheons

(see page 3 for more information)

# OPTIONAL FEATURES

## LED Lighting Systems

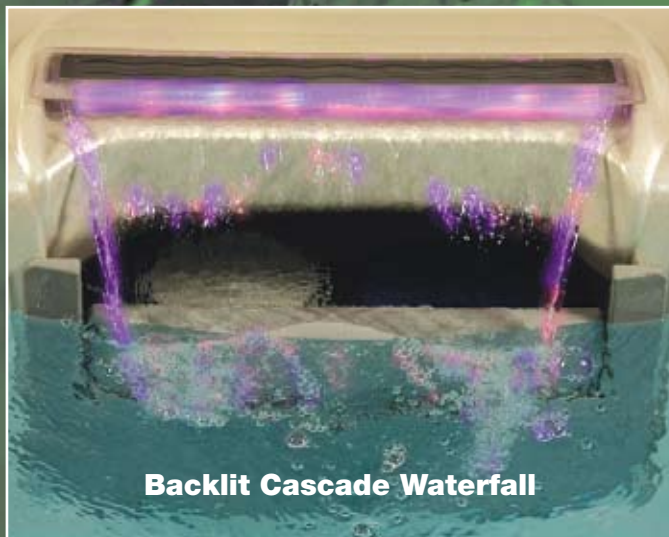

The right lighting can add the perfect touch to your spa experience, and Island Spas' LED lighting systems are designed to set the mood. Our ten-function system leaps to life with a touch of the button on the spa control pad. Each touch washes the water with up to five different coloured lights and allows the user to stop on any one of the preferred colours. Scroll further with the control button, and you will discover a multi-coloured adventure with each new touch. The final five functions are different combinations of colours set side-by-side in an artful transition. This dazzling light show is your boarding pass to a truly adventurous soak. Our LED systems are available in three unique configurations – DynaStar, DynaPoint, and DynaBrite™. Ask your dealer which system is perfect for you.

### DynaStar™

Consisting of the main spa lighting and 4 additional light lenses with the spa.

### DynaPoint™

This system has all the features of 'DynaStar' with the addition of a backlit 'cascade waterfall' on the filtering housing, lighting to the optional pillowfall and 2 exterior cabinet lights (includes the cascade waterfall).

### DynaBrite™

Upgrade to this truly amazing night time light show. It consists of all the features of 'DynaPoint' with an additional 3 light lenses in the spa (includes the cascade waterfall).

## Ozone: natural clarity is a beautiful thing

What does ozone do for your spa water? Ozone destroys bacteria, viruses, and mildew, and eliminates spores and fungus, as well as oils and other contaminants. It keeps your spa water clean, clear and fresh. Ozone ultimately enhances the performance of chlorine and bromine in your spa and allows you to use substantially smaller amounts of those chemicals to achieve and maintain sparkling, clean water. Every Island spa can have an ozonator installed for 24 hours of treatment.

## Pillowfall

Experience a one-of-a-kind splash every time you enjoy your spa with the optional Island Pillowfall. Water pours from the spa pillow, creating a soothing waterfall with all its tranquil effects. Simply enjoy the serene sound of the falling water or nestle under and feel the warm water sweep down your neck and back.

## Propure Ozone

This higher output ozone generator combined with vortex mixing chambers gives crystal clear water and requires even less chemicals than standard ozone.

## OPTIONAL FEATURES...CONTINUED

### Aquatic Symphony Stereo

With your own Island spa in your back yard, total escape is within easy reach every day. An Island Aquatic Symphony stereo system is the perfect addition to complete your luxurious retreat. Now, while your muscles are being soothed to a state of abandon, the sounds from your stereo system will lift your heart and soul. You will appreciate one of our marine-grade, state-of-the-art surround systems, complete with a powerful subwoofer. This watertight, MP3 Adaptor-ready system, comes standard with LCD remote control and is available with cabinet-mounted patio speakers.

### Aquatic AV Stereo (add on) iPod Docking Station

Keep your iPhone or iPod charged and protected in a water resistant dock. Listen to your MP3's with your spa's stereo system. (This unit is an add on option to the Aquatic Symphony Stereo)

### Stereo radio with MP3 Adaptor

Listen to your favourite Radio station or plug in your MP3 player and enjoy the high quality sound of this system at a budget price. Comes with 4 in-spa speakers and powerful subwoofer.

### Patio Speakers

Partying on your patio, gardening, BBQ's. Listen to your favourite music from your spa stereo without removing the cover and wasting heat.

### ProGuard Cover

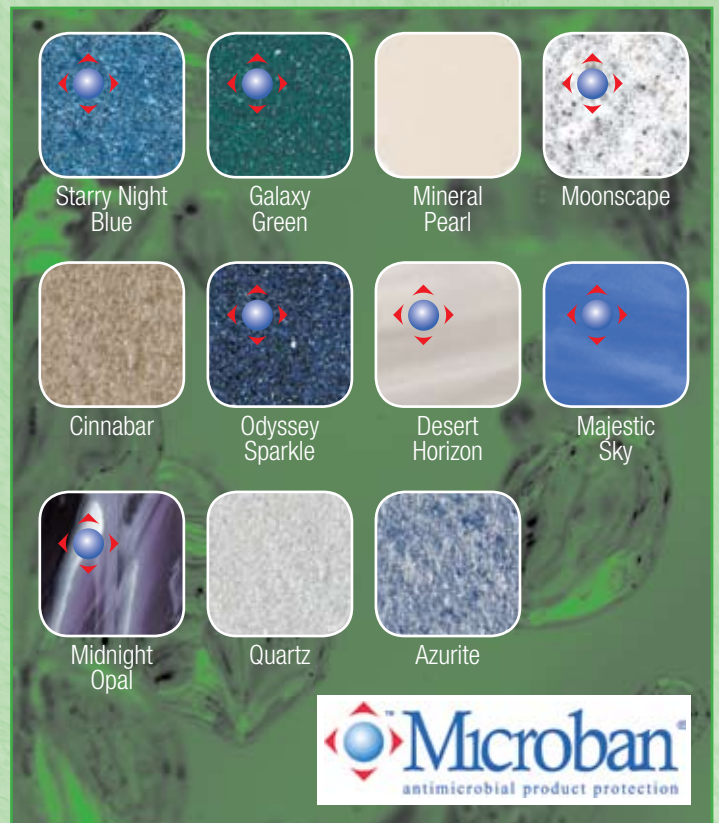

The ProGuard has a 150mm to 100mm tapered high-density Dura-Core foam insert with 18-gauge galvanised steel c-channel beams and is capable of withstanding 270kg across the cover surface.

### Maintenance free Rock Cabinet (see page 11)

Beautiful, long-lasting Rock cabinetry is an available option that add years of maintenance-free life to your spa. Maintenance free cabinetry will not rot, rust, warp, deteriorate or require replacement. Panels are made of a durable, synthetic material that can withstand the harshest weather conditions, including snow, humidity, rain, sleet, and heat. This all-weather durable, fade and stain resistant Rock cabinet requires no painting or staining. Easily clean-up these cabinets with soap and water, if necessary. Best of all, no trees required!

(Rock Cabinet not available on Bimini, Nevis, Dominica or Santa Cruz)

Artesian proudly offers cast acrylic with antimicrobial protection, in addition to our granite and marble shells. Tested safe and registered with the EPA, Microban penetrates and disrupts key cell functions of micro-organisms. Although spa owners should still follow a regular maintenance program, Microban inhibits the growth of bacteria that cause odours and stains between cleanings.

Dynabrite and Stereos are not available on the Santa Cruz model.

Bimini available in Moonscape, Starry Night Blue, Sterling Silver and Quartz only.

NOTE:- Specifications Subject to change without notice.  
Warranty: 2 years parts & plumbing - 2 years labour  
2 years on PermaWood Cabinets.
